BUILDING AN INCLUSIVE ECONOMIC RECOVERY

In association with

23 March 2021 | 10:00 - 11:30

The Scottish Government's approach to recovery seeks to address a range of economic, social, and environmental challenges. It has committed to delivering a green recovery and is implementing a Young Person's Guarantee, but there is still more to do.

This webinar will be an opportunity to consider what further action is required to ensure that the skills needs of all workers, families and communities are met, so that no one is left behind. It will explore what an inclusive economic recovery might look like in reality and how we can utilise the expertise of a wide range of stakeholders.
